Help Community Living Ontario **#EndTheWait** by signing our online petition. We are asking party candidates:

"If your party is elected, would you commit to ending the wait for funding and supports for people who have an intellectual disability and stabilizing services by committing to the \$810 million over three years promised in the proposed 2014 provincial budget?"

Investment will:

- End the wait for daily living supports for children and adults which is almost 20,000 people long;
- Begin to address the wait list of over 7,000 people who are waiting for support to live in a home of their own;
- Deliver stability to agencies who provide frontline supports;
- Develop new community-based services that support key life transitions.
